

At the Theatres This Week

GRACE SCOTT.

(Continued From Eighth Page.) met knight to let the flash of steel decide which was to have the lady fair. Miss Scott is delightfully charming in such roles, as local theatregoers have a reason to know. She will be ably assisted by Harrison Ford, already something of a matinee idol, and destined to become even more popular as he gets better acquainted.

Special scenery has been painted for the production, and costumes at once elaborate and fitting have been bought, fashioned along the original lines of the first production. Richmond will get one of the Giffen kind of performances, which should be convincing enough for any one. The play itself is brimful of comedy, with just enough of the serious to keep the attention of the audience at all times. Many in the cast are better known in their parts already, and when Arthur Berthel, stage director of the company, finishes his work, there will be never a hitch in the performance.

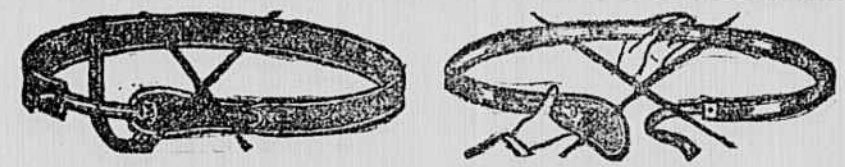

The same scale of prices. Bijou prices will prevail, and regular matinees will be given.

Colonial Changes Policy To-Morrow.

The Colonial announces an amplification of the policy now existing in that theatre, which provides ten acts every week hereafter, instead of five as heretofore. Displaying ten high-class vaudeville offerings in this city, and with only three performances each day, means that there must be two different bills each week. In accordance with this idea, the completed arrangement is that five vaudeville offerings will hold the boards for the first three days of the week—Monday, Tuesday and Wednesday—and an entirely different and separate collection of vaudeville features will provide the attraction and entertainment during the last three days of the week, including Thursday, Friday and Saturday. In vaudeville circles this is called a "split" week, and this is what is intended.

Trusses Like These Are A Crime

Such Maleshifts Have Forced Thousands Into Risking Dangerous Operations.

Wearing elastic and spring trusses year after year is almost sure to shorten your life.

You can't make them hold, even when drawn so tight you can scarcely stand to keep them on.

They usually let you get worse all the time—that's why every year they are forcing thousands of people into undergoing operation.

They are simply a crime—squeeze the rupture, often causing strangulation—dig into the pelvic bone in front—press against the spinal column at the back—make life miserable for nearly everybody who wears them.

The Plain Truth Is This

You can't possibly get well—can't even keep from getting worse—unless your rupture is constantly held in place. Just as a broken bone can't knit unless held securely together.

And just as a bandage or splint is the only way a broken bone can be held, so the right kind of truss is the only thing in the world that can keep rupture from coming out and growing worse.

You'll feel like a new person from the day you put on that kind of a truss.

But you know as well as we that you'll never find such a sure-to-hold truss at any drugstore.

It's the famous Cluette Truss or Cluette Automatic Massager—absolutely guaranteed to cost you a cent if it doesn't.

It's so utterly different from everything else for rupture that it has received eighteen separate patents.

Made on an entirely new principle. Instantly and automatically protects you against every strain so your rupture can't possibly be forced out. Self-regulating, self-adjusting. Far more than just a truss.

In addition to constant holding it provides the only way ever discovered for overcoming the weakness which is the real cause of rupture.

Just how it does that—entirely automatically—and how it has thus completely cured hundreds and hundreds of people whose cases seemed almost hopeless—is all explained in the free book which the coupon below will bring you.

No Belt—No Leg-Straps—No Springs

The Cluette Truss does away with the curse of belts, leg-straps and springs. Thousands say it is as comfortable as their clothing. It is waterproof—will hold in the bath. Also perspiration-proof and easily kept clean.

Make This 60-Day Test—

You Won't Have to Risk a Penny

We don't ask you to trust to a mere try-on the way you have to do at a drugstore.

We'll make a Cluette Automatic Massaging Truss especially for your case—make it to your measure—and let you try it sixty days.

We'll practically lend it to you that long just for a test.

If it doesn't keep your rupture from coming out or bothering you in any way, no matter how hard you work or strain—it hasn't proved every claim we make—then you can get it back and it won't cost you a penny.

Free Book Full of Facts

Never Before Put in Print

Don't keep on letting yourself get worse—don't spend a cent on account of your rupture until you get our free book of advice.

This remarkable book—cloth-bound, 36 pages—tells up all we have learned about rupture during forty years of experience.

You'll find it full of facts never before put in print.

It shows just why elastic and spring trusses cause so much misery and such a shutter waste of money that the law should stop their sale.

It explains why operation is nearly always a needless gamble with death—and why, if you do manage to live through it, you may have to keep on wearing a truss.

It exposes the humbug "appliances," "methods," "plasters," etc.

It shows why sixty days trial is the only safe way to buy anything for rupture—and how the Cluette Truss—how simple it is—how it ends constant expense—how it has saved thousands from operation—how you can get it on trial, and how little it costs if you keep it.

Also gives voluntary endorsements from over 5,000 benefited and cured people.

Write for this book to-day—don't put it off—the minute it takes to send for it may free you from trouble for the rest of your life.

Simply use the coupon, or just say in a letter or postal, "Send me your book."

To Supervise Rex Pictures.

D. W. Griffith, one of the country's leading motion picture producers, has been engaged to supervise all the "Mutual releases," which are shown exclusively at the Rex Theatre. Mr. Griffith will have immediate charge of the Reliance and Majestic pictures, and will pass on every scenario produced by any of the companies affiliated with the Mutual, and will revise or reject them, as he sees fit.

First Run Pictures at Empire.

After several weeks of effort, trying to induce the General Film Company to work overtime getting out an exclusive all first-run service, Jake Wells finally got that concern under contract to furnish the Empire Theatre, starting to-morrow and continuing indefinitely, the real exclusive first-run picture plays. This is the first time in the history of local "movies" that any theatre, large or small, has made such an announcement. This should be great news to the thousands of picture lovers in Greater Richmond, for now they can see all the two, three, and sometimes four-act picture plays, direct from the film factories of the Vitagraph, Biograph, Lubin, Kalem, Selig, Pathe, Edison and Essanay Companies. Every picture that is shown on the screen at the Empire will be first run exclusively. The program will be changed at the Empire from now on three times weekly, on Mondays, Wednesdays and Saturdays.

At the Virginia.

"An Hour Before Dawn," a thrilling detective story, introduced with a love affair of no little interest, will be the offering on Wednesday and Thursday at the Virginia Theatre. Laura Sawyer and House Peters, presented by Daniel Frohman, will appear in the principal roles of this picture-play. The plot of "An Hour Before Dawn" is gripping from the very start, and holds the audience's interest until the end. All of the arts of modern criminal detection and many unique methods are introduced. The scenario was written and directed by J. Searle Dawley.
